

Reasons to choose the MASTER

Water Resistant

α-H-53S-500

5 Durability

The concept of a washable hand-held analog unit is exceptional. After measuring, the instrument can be cleaned with running water under a faucet. The new structural-design of these units allows them to be washed whenever necessary. Rated IP65 (dust tight and water resistant).

The world's first feature

The MASTER series has passed all water resistance, dust resistance, and drop tests. Instruments were subjected to water jets from four directions, dropped from a height of one meter onto an oak platform, and withstood the pressure changes of air travel.

6 Calibration

The α and H types can now be calibrated with the new waterproof calibration screw. All MASTER models can be calibrated by end-user.

7 Automatic Sample Distribution (ASD)

ATAGO has developed a spoon-shaped tip that automatically spreads the sample across the prism. This makes the instrument even more user-friendly, saving valuable time.

Hygienic Design

The MASTER series was also designed with a smooth and easy-to-clean grip, eliminating the possibility of food and samples being trapped which can result in contamination and bacterial growth.

Visibility

Efficiently using an analog unit depends on how easily the measured value can be read. Extensive research and the use of quality optics result in a measurement scale that is very bright, creating a high contrast to see clearly where the boundary intersects the memory lines of the scale.

4 Automatic Temperature Compensation (ATC) α-T-H-53S

The newly designed ATC system allows the MASTER series to read more accurately than any comparable unit. ATAGO has applied for a patent on the design of the improved ATC system. The MASTER series reads more accurately than any comparable unit in the market.

8 Repair and Service

ATAGO has established a close network of customers by providing excellent customer service and support. When an ATAGO instrument needs servicing, not only is each customer treated with respect, but they are also provided with detailed methods and userspecific suggestions on sampling and taking measurements, based on individual needs.

9 Reputation for Quality

ATAGO has built a firm reputation for reliability and quality during its over 70 years history. We are a strong company that exports to over 154 countries with continued growth expectations. ISO 9001 certified, along with our integrated system for producing and marketing our products, based on the "Plan-Do-Check-Act" cycle, is essential to the continued quality and to the promoting of the ATAGO name.

Simple Operation

1 Apply 1-2 drops onto the prism.

2 Close the daylight plate. View the scale through the eyepiece.

3 Read the measurement value where the boundary line intersects the scale.

Applications

-Measuring sugar concentration, concentration, Brix and Refractive Index-

Honey

Honey

Jam, Syrup

Jam, syrup, confectioneries

Soy milk

Soy milk

Condiments

Condiment, seasonings, ketchup, various sauces, soy sauce

Wine

Grapes, wine must

Drink

Fruit juice, soft drink, carbonated beverage

Cooking

Chinese noodle soup, various soup, various sauces

Agriculture

Fruit and vegetable juice, leaf juice, stem juice, root juice

Salinity

Sodium chloride solution, sea water, pickles

Machine Tools

Firefighting foam, soluble cutting oil

Chemicals and medicine

Brine, deicing solution, medicine, chemical, cosmetics, cleaning solution

Clinical

Urine, serum

Optional Accessories

Daylight Plate
For metal body model
Parts.No. RE-2315-60M
For plastic body model
Parts.No. RE-2315-61M

Small Volume Daylight Plate With Hinge Pin
For metal body model
Parts.No. RE-2311-67 M
For plastic body model
Parts.No. RE-2391-67 M

Super Extractor
Parts.No. RE-29401

Sucrose solution (for Brix confirmation)
Parts.No. RE-110010 10% Sucrose
Parts.No. RE-110020 20% Sucrose
Parts.No. RE-110030 30% Sucrose
Parts.No. RE-110040 40% Sucrose
Parts.No. RE-110050 50% Sucrose
Parts.No. RE-110060 60% Sucrose

ATAGO
MASTER of REFRACTOMETRY

The Ultimate Hand-Held Refractometer Unsurpassed
in Function, Operation, and Design

MASTER

Design Registration No.000379326-0001, 000379326-0002 (EU)
ZL 2005 3 0116403.4.5 (China), D111526 (Taiwan), D555, 549 (U.S.A.),
1255763, 1255764, 1255765, 1255766, 1255767 (Japan)
Patent Granted in countries around the world.

About the Trade Mark:
Year 2005-ATAGO was established 65 years ago and we have been developing, manufacturing, and marketing Refractometers based on our in-depth study of optics. This year we have released our NEW Hand-Held Refractometer series, the "MASTER" to support and meet our customer's needs. The NEW "MASTER" series is a fitting name to match its ultimate performance. The trade mark "光" is the Japanese Kanji which means "light". The decision to use this Kanji as a trade mark for the MASTER series is to emphasize that this product was designed and manufactured in Japan. With the multitude of imitation products out in the market today, ATAGO is maintaining our identity as the master of manufacturing quality instruments. We, ATAGO, would like to be your business partner and to be the "light" to continue towards a bright future together.

Hand-held Refractometer

MASTER series

Choose the right model for your sample, based on the features and materials of the instrument.

Brix scale examples
MASTER-53X Brix 0 to 53%

Features 6 types

Both the α and T types are equipped with the Automatic Temperature Compensation feature. Choose the α type for the added feature of IP 65 water-resistance. The H type is the heat-resistant version of the α type.

Series / Model	α	T	M	H	53S	500
Water resistant	●	—	—	●	●	●
Automatic temperature compensation	●	●	—	●	●	—
Heat resistant	—	—	—	●	—	●
Milky sample	—	—	—	—	●	—

MASTER-53S for Milky sample

Opaque, inhomogeneous liquids can be difficult to get a clear boundary line with a conventional refractometer. This model is recommended for cream-based sauces, yogurt, mayonnaise, and various emulsions used in industrial processing.

MASTER-500 0 to 90% Wide Brix Range

Understanding model names

A model name consists of the scale (sample name), material, and feature type.

Brix Scale

MASTER-53
