

Dipslides

Simple and economic to use, Palintest Dipslides are ideal for cooling water circuits, institutional hygiene and applications where indication of general microbiological contamination is required.

Palintest Dipslides include the following:

- **Suitable for liquid and surface testing** – either immerse the Dipslide within the sample or place in contact with the surface under test.
- **Simple result determination** – compare the clearly visible colonies produced with the supplied standard chart.
- **Available in two formats** – supplied in packs of 10, Dipslides are suitable for Total Colony (TTC) only or Total Colony plus Yeasts and Mould (TTC/M) for full compliance checking.

| Ordering Information | Part Code |
|----------------------------|-----------|
| Dipslides, TTC (10 pack) | PT711 |
| Dipslides, TTC/M (10 pack) | PT710 |
